Gültigkeit der Untergruppen

Validez de los subgrupos

= Valgono tutte le parti del sottogruppo indicato nella colonna Sgr.

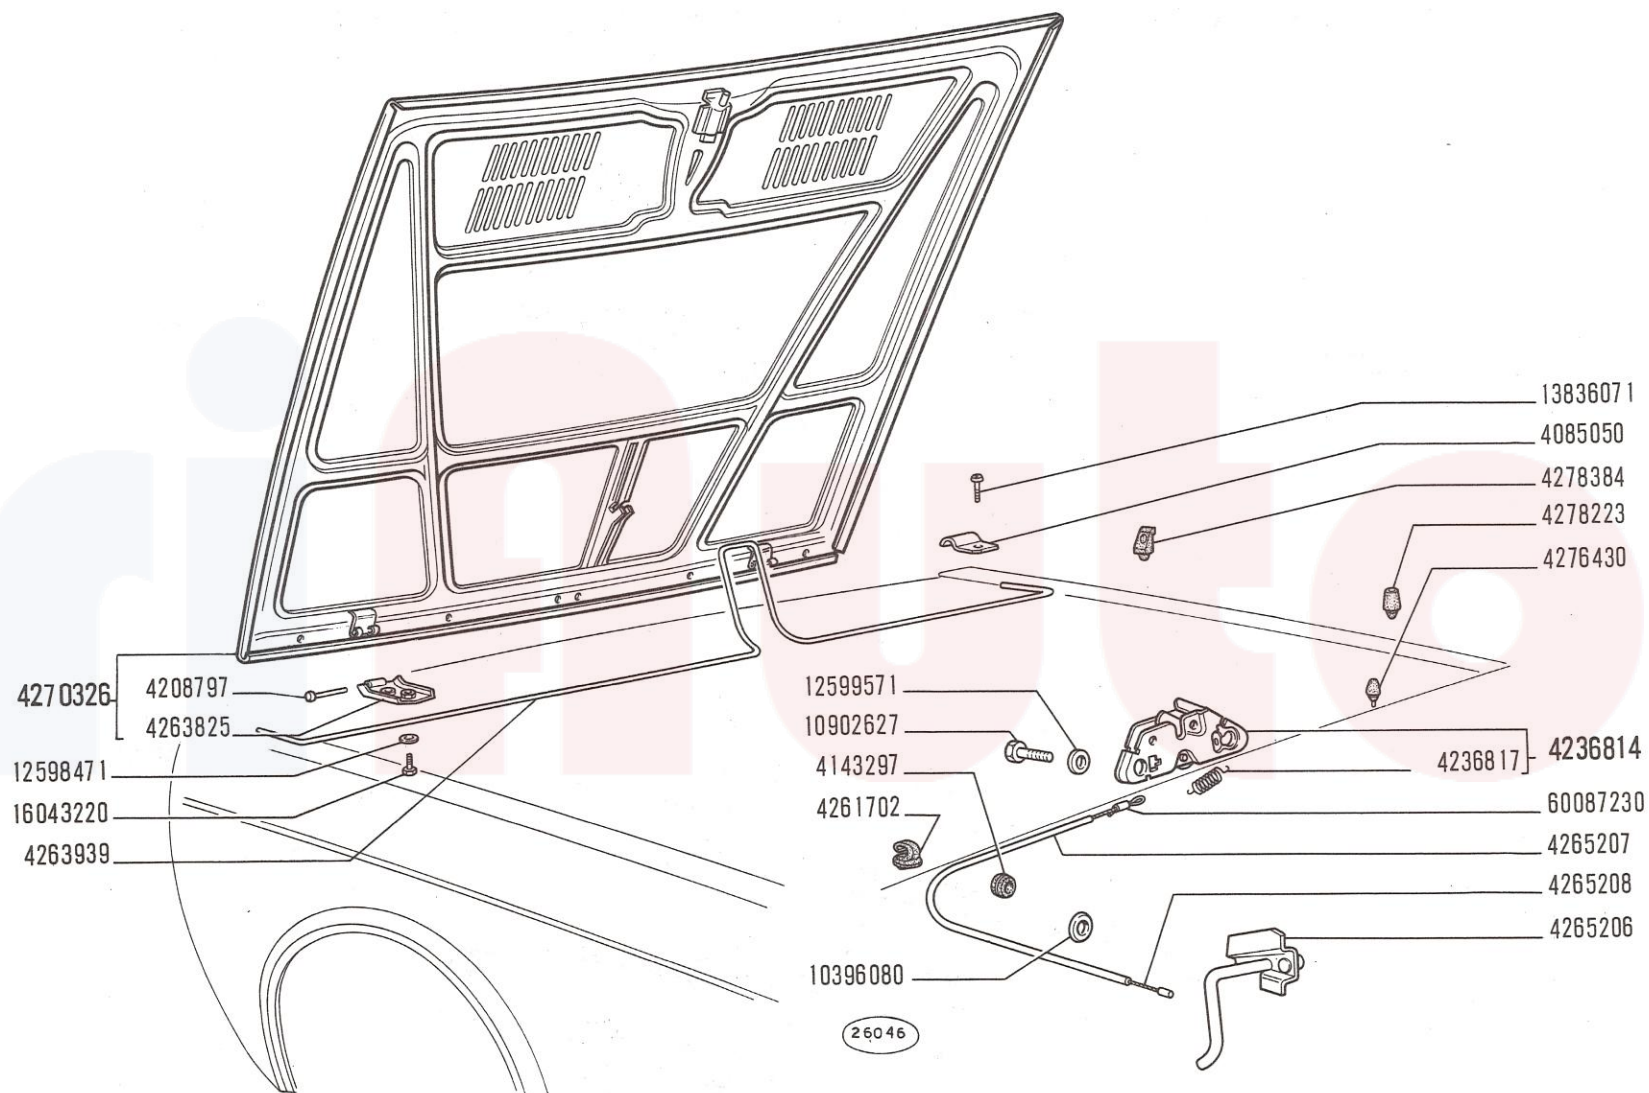

● I codici numerici stampati in neretto indicano la validità dell'intero sottogruppo per una variante; i codici numerici stampati fra parentesi indicano l'esistenza nel sottogruppo di parti proprie di varianti.

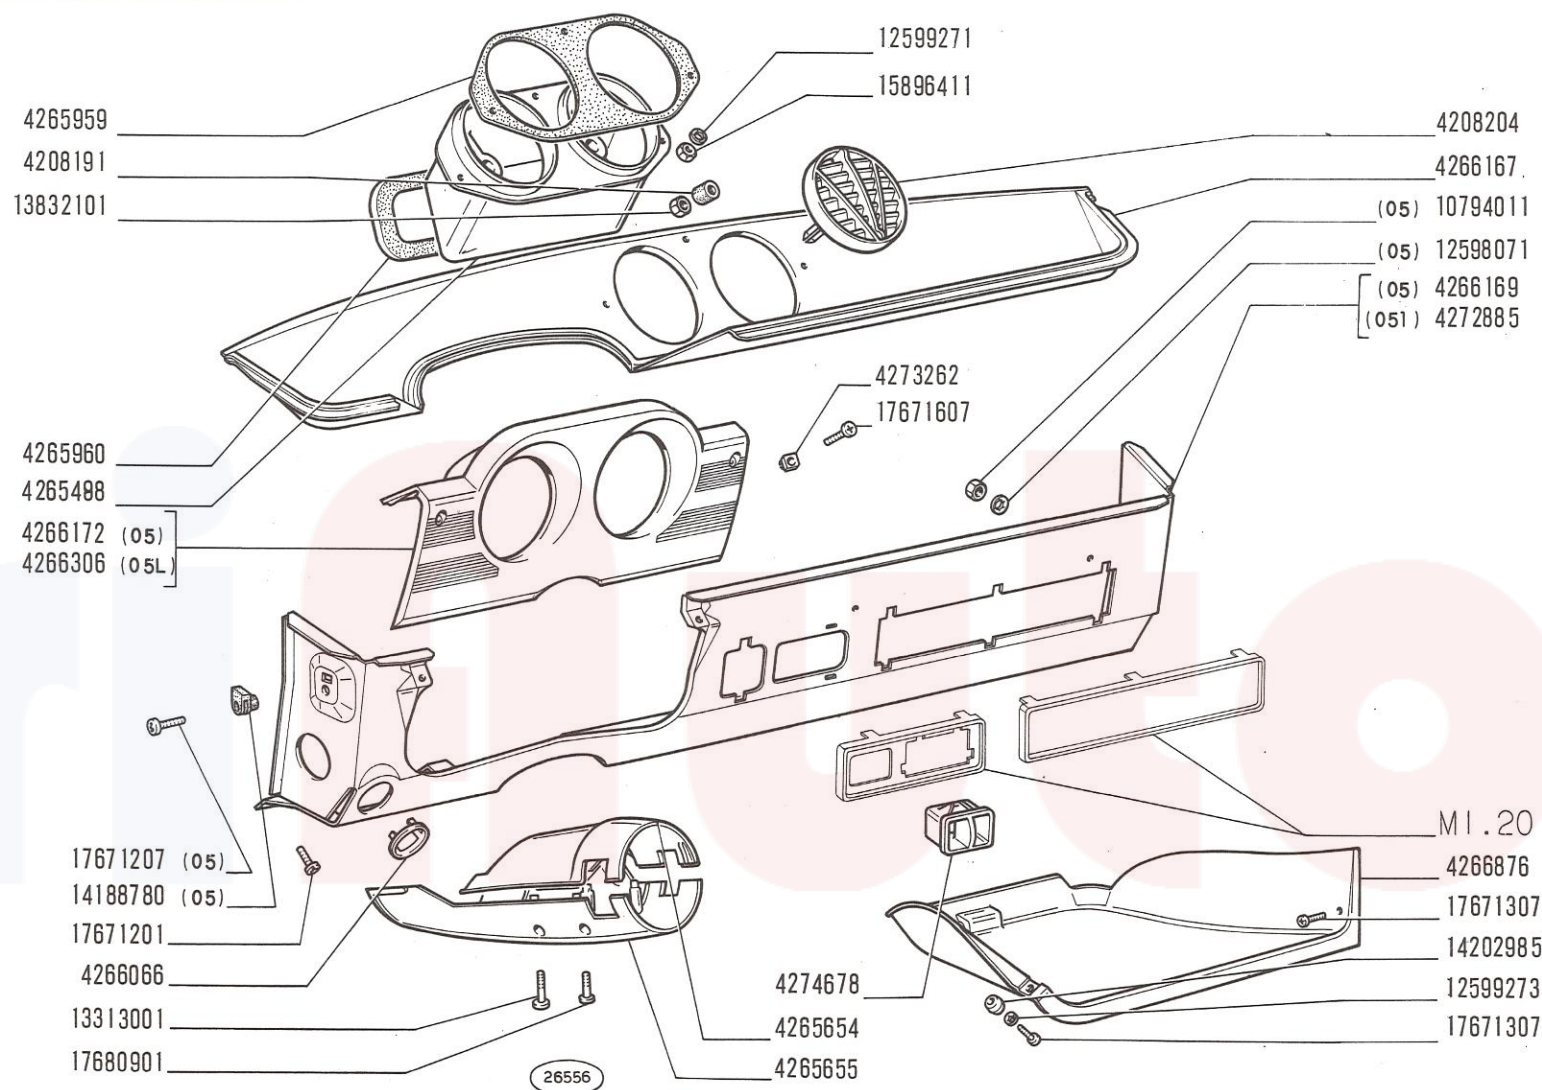

● Les codes numériques imprimés en caractère gras indiquent que tout le sousgroupe est valable pour une variante donnée; les codes numériques entre parenthèses indiquent que dans le sousgroupe il existe des pièces propres de variantes.

Die schwarz gedruckte Kennnummer gibt an, dass die gesamte Untergruppe für den betreffende Typ gültig ist; die eingeklammerte Kennnummer gilt an, dass die Untergruppe modelleigene Teile des betreffenden Typs enthält.

● The bold-face code numbers indicate the applicability of the whole subgroup to one particular version; the parenthesized code numbers, instead, mean that the subgroup in question includes also parts which are specific of the version(s) involved.

● Los números de código en **negrita** indican la validez de todo el subgrupo para una versión; mientras que los números de código entre paréntesis, significan que en el subgrupo hay piezas propias de las versiones representadas.
