### Gültigkeit der Untergruppen

### Validez de los subgrupos

= Valgono tutte le parti del sottogruppo indicato nella colonna Sgr. = Toutes les pièces du Sousgroupe indiqué à la colonne Sgr. sont valables. = alle Teile der in der Spalte « Sgr. » aufgeführten Untergruppe sind gültig. = All parts of the Subgroups indicated under « Sgr. » are applicable. = Son válidas todas las piezas del subgrupo indicado en la columna Sgr.

● I codici numerici stampati in neretto indicano la validità dell'intero sottogruppo per una variante; i codici numerici stampati fra parentesi indicano l'esistenza nel sottogruppo di parti proprie di varianti.

● Les codes numériques imprimés en caractère gras indiquant que tout le sousgroupe est valable pour une variante donnée; les codes numériques entre parenthèses indiquent que dans le sousgroupe il existe des pièces propres de variantes.

● Die schwarz gedruckte Kennnummer gibt an, dass die gesamte Untergruppe für den betreffenden Typ gültig ist; die eingeklammerte Kennnummer gibt an, dass die Untergruppe modelleigene Teile des betreffenden Typs enthält.

• The bold-face code numbers indicate the applicability of the whole subgroup to one particular version; the parenthesized code numbers, instead, mean that the subgroup in question includes also parts which are specific of the version(s) involved.

● Los números de código en negrita indican la validez de todo el subgrupo para una versión; mientras que los números de código entre paréntesis significan que en el subgrupo hay piezas propias de las versiones representadas.
